COACHING

modalities

Method A.- In real work conditions.
 Method B.- specialized seminar.

The methodology is applicable to both formats establishing the field as most important difference.

Restoration of wall paintings sgraffito
 dyed stone pigmented wood colored glazes polychrome
 iron lime wax oil

Although the format A the instruction provided relate only to the ongoing design implementation, as it is a highly practical format, the method is shown fully functional, while B is more appropriate format to display the maximum possibilities of the method of in a controlled area.

Client design system human and technical resources
 method technique presentation design
 logistics implementation
